## **Challenges Faced by Examination Assistants in 2014 and 2015**

The years 2014 and 2015 were marked by significant logistical and operational challenges for examination assistants in Limpopo. One of the foremost issues was the infrastructural deficit within certain rural areas. Many examination centers lacked adequate facilities, such as proper lighting, seating capacity, and security measures, complicating the assistants' efforts to uphold examination standards.

Language diversity presented another layer of complexity. Limpopo is home to multiple indigenous languages, and examination assistants often had to facilitate communication between candidates and invigilators who might not share a common first language. This required patience, cultural sensitivity, and sometimes the ability to act as informal translators.

Furthermore, the pressure to prevent examination malpractice was intense. The 2014 and 2015 examination cycles saw increased scrutiny from provincial education departments and the national Department of Basic Education, following national concerns about exam security.
